THIS IS ELECTION YEAR

Note from the Board

AESBL....A committee was formed from the board, with the soul purpose of looking at the requirements of continuing education. After much deliberation the committee presented a draft to the AESBL Board related to Alarm Security. The draft is also related to the Electronics and CCTV required classes, but no decision will be made until the next board meeting May 10, 2011. So as, you will notice we are making classes 8 hours each, but do not forget you can carry credits for 18 months.

Election Time This Year

Benny Hopper Hoover Lock & Key is in Chairman

John Orr Brooks Lock & Key is your co-chairman

Keith Ledbetter American Lock & Key is your Secretary and your web Master

Barbara McGowin St. Clair Lock & Key is your Treasure

Lee Shofield is the Legislative Committee Head

Allison Griffith Allen's Lock & Key is Head of the Membership committee.

We need people to help either by taking over a position or joining a committee. Elections will be December 3rd, 2011 at the Christmas Party

This is the beginning of a new year and from this newsletter on there will be some changes to help your Association keep down cost.

1. Anyone that does not pay their dues will not receive another newsletter.

2. You will also pay NON-MEMBER cost for any classes you sign up for if you have not paid your member dues.

3. You will not receive a membership certificate if dues are not paid by April 1st.

You have to sign up for the class by paying up front, **no spots will be saved without payment**. Classes are limited in size to make for better learning so if you wait too late to sign up the class may already be full or canceled.

If you know of a Locksmith in your area that does not have a license, you can e-mail the name and address to the aesbl@aol.com and send them the name and address of the unlicensed locksmith. They will send a letter to the locksmith telling them they have to get a license. The AESBL board will follow up with a visit from the Inspector. We have to help the law work.

Home Depot, Lowes or any hardware store is **not** supposed to be re keying locks unless they have a licensed locksmith on staff, so these are to be turned in also, as they have already received a letter from the board and they have agreed to stop any re keying.

VERY IMPORTANT

Classes must be signed up and paid for 30 days before the date of the class, so we will know if we have enough people to have a class. If we do not have enough people to fill a class 30 days before the class date, we will have to **cancel** the class. This may cause you to have to travel to get your CEU credits SO, look at the classes and sign up NOW for the ones you want to take. You can also pay for your class on line www.locksmithala.org

Sat, June 4th, 2011 Detex Class Training 8-hours \$ 75.00 for members----Limited to 25 Students

Class Description: This class will provide technical information to the attending locksmith dealers on Detex Loss Prevention Hardware, Architectural Hardware and low energy operators. One hour Advantex; easy to install - tough to beat. Teams of two will install a Detex Advantex device using the patented no paper template strike locator and 4 ounce mounting plate. Attendees will view the Simple installation and hook-up of the Detex Easy Kit combining a fully functional Detex low energy operator and a Detex silent operating latch retraction Advantex exit device, and life safety codes.

Sun, June 5th 2011 Deadline : May 13th, 2011 \$75.00 for members

Master Lock Factory Certified Training 1 -8 hours -----Limited to 25 seats

A eight hour hands on training class that will familiarize the student with the construction, variation, part numbers, and servicing techniques for the ProSeries product line. Students will rekey a cylinder and disassemble and reassemble various locks for practice, and become familiar with the new BumpStop technology. The class will also familiarize the student with the new EDGE Key Control System products. In class the student will rekey a cylinder and learn about the various levels of key control available. The class will also familiarize the student with the Python adjustable locking cable lock. The student will receive a copy of the latest Master Lock Technical Manual and American Lock service Manual in class. There will be a test at the end of the class and a passing grade will give you a Factory Certification.

Check or Money Order for **each** Class is 75.00 for members and 100.00 for non-members

July 9th and 10th, 2011 Hyatt Place Hoover, Al

Kaba-Mas X-09 Installation/Operation

Instructor: Seth Blumberg Saturday July 9th 8 hours Limit 20 Students

This certification course provides in-depth training for installation, operation and programming of the X-09 lock and presents the differences between it and the X-08. Students will be taught to handle the X-09 without causing ESD damage to the lock during the installation process; set up the lock in various modes of operation; change combinations; recognize and clear error conditions in the lock; auditing procedures; and basic troubleshooting. Also taught are proper removal procedures of the lock's back cover and information regarding the lock's internal parts. During the programming section, students will operate the lock in single, dual, and supervisor/subordinate modes. All tools are provided and students receive a training workbook and product manuals. A multiple-choice exam is given at the end of each course. Students must score 76 percent or higher to receive certification of training from Kaba Mas.

Lab Fee \$50.00 for ALOA or ALA members, \$275 for non ALOA or ALA members.

Cost of this Class: \$100.00 + 50.00 lab fee for Members \$150.00 + 275.00 lab fee non-members

Safe Deposit Lock Servicing

Instructor: Seth Blumberg Sunday July 10th 8 hours Limit 20 Students

This one day class is designed for those who wish to enter the lucrative safe deposit servicing field. The class will begin with a discussion on the construction, design and terminology specific to safe deposit locks. Students will learn to identify the various models of safe deposit locks and have hands on practice disassembling, examining the parts, and reassembling a variety of locks. Students will also learn how to originate keys for the locks used in the class and learn about the various opening techniques used include picking; nose pulling and door pulling.

Materials to bring to class: four way screwdriver; vise grips; other small hand tools for working with lever locks and pencil and paper. The information presented will be useful in preparing for PRP Elective L-25 Safe Deposit Lock Servicing.

Cost of this Class is \$ 75.00 for members. \$125.00 for non-member

The Mandatory Test will be given Saturday July 9th at 5:00 pm it is \$75.00
