2015 Show was a Great Success!!

2015 Technical Show was a success, now on to 2016

The 2016 Alabama Locksmith Technical Show will be March 19th, 2016 at the Birmingham, Marriott. This year it will be from 9:00 am to 2:00 pm with a Banquet to follow at 6:00 pm, with door prizes and one big prize. There will be music and dancing and a nice dinner. Be sure to mark your calendars.

This year we will have a Best Truck contest with prizes of a Free class given by the Alabama Locksmith Association of your chose, good for two years, and second prize \$100.00 dollars, and third prize \$ 50.00. You must register ahead. Trucks will be judged on outside appearance, inside organization, and equipment.

Alabama Locksmith has an Office and Warehouse now:

Your Alabama Locksmith Association is growing with the support of it's membership. We have had several classes here and would like to try for a locksmith yard sale again. Would really like your feed back on a date and time.

VOTING ON NEW BOARD!
THIS IS MEMBERS ONLY

It's that time again to vote on people to serve on your board. You are being sent separate sheets to Nominate someone or yourself to serve for the next two years or volunteer to help on a committee. PLEASE fill these out today and get back to us, so ballots can be made for the Christmas Party. We will vote ONLY at that time, no Nominations will be taken at the meeting, so fill out the ballots today.

State Board Meeting

Tuesday, August 11, 2015
Tuesday, November 10, 2015

All meetings are held at 9:30 a.m. at the AIDT Center:

AIDT Center
15 Technology Court
Montgomery, Alabama 36116

BEST TRUCK CONTEST at SHOW for 2015

Our FOURTH show is in the works we need all the help and ideas you can come up with. Classes you would like to have, companies that come to see you that might like to have a booth

in our next show. It will be March 14, 2015. The show will be on Saturday with classes on Friday, Saturday and Sunday

Teaching Classes

Anyone that has education to share can send the Alabama Locksmith Association a class description with your qualifications and the board will consider you for teaching a class.

Please support these vendors that support your Association.

August 22 nd, 2015 Transponders A-Z

August 23 rd, 2015 Motorcycle Locksmithing

Both taught by Ed Woods CML, CPS, CAL from ALOA

A008 Motorcycle Locksmithing (P- 22) 8 hours \$ 150.00 member \$ 225.00 non-member

Students will learn the basic terminology, skills, proper application of tools and other critical information necessary for the practice of professional and profitable motorcycle lock service. During the clinics, students will disassemble, examine and reassemble, motorcycle ignition, tank, fork, helmet and compartment locks of many types and designs and check each others work upon completion of each task. During the lectures, students will become familiar with the various manufacturers products and key systems, review the various methods of key generation, and based on the various circumstances presented to them by the instructor, determine the fastest and most practical method of key generation and execute the method. Most of the major cycle manufacturers more prevalent lock systems will be covered.

Students wishing to more fully participate will bring a laptop with a motorcycle key code database installed, a selection of bench tools and lock picks, a clamp-on vise, and motorcycle locks that may have been a challenge to them in the past. The information presented will be useful in preparing for PRP section L-22. PRP Section L22 will be offered after class. ALOA Members - \$20.00 & Non-Members - \$25.00

A024 Transponders From A to Z 8 hours \$ 150.00 Members \$ 225.00 non-member

This class will cover On Board Programming, Cloning, Multi Vehicle Programmers, as well as some dedicated programmers for automotive transponders and remotes. The instructor will also present an overview and discuss the latest tools and equipment for the foreign and domestic electronic automotive security market. Tools, blanks, and techniques are changing at an astounding rate, so the instructor will provide the students with the latest information available. Due to the vast amount of information presented in this class that changes constantly, there will not be any hands on programming of vehicles for this class.

Prerequisite: Basic automotive Locksmithing knowledge including making mechanical automotive first keys.
